PRO - CARBIDE BURRS

ernö

ABRASIVES | ABRASIFS

Double Cut and Non Ferrous Pro-Carbide Burrs

Solid carbide rotary burrs. Used in metal applications for grinding edges and contours.

GRINDING | DEBURRING

The most popular cut pattern for steel and stainless steel applications. The left hand crosscut produces smaller chips, providing better operator control and excellent finish.

Our Pro Series is a value offering of quality Abrasive Products.
